FEATURES

Your entire practice, one software

DOCTA brings together all your daily tools in an intuitive platform built for doctors and their secretaries.

**Complete patient records**

Automatic patient number (PAT-000001), ID card, cnam, insurance, photos, emergencies, complete medical history — everything at your fingertips.

**Smart scheduling**

Plan your appointments, confirm them automatically by notification, detect no-shows and optimize every slot of your day.

**Digital medical record**

History, allergies, chronic diseases, vaccinations and documents. Reliable, instant lifetime patient follow-up.

**Structured consultations**

Diagnoses, vitals (weight, blood pressure, pulse), observations and notes — neatly recorded and automatically linked to the patient record.

**PDF prescriptions + QR Code**

Generate professional PDF prescriptions with a QR Code, printable and shareable in seconds.

**Billing & payments**

Invoices, PDF receipts, cash, card, check, cnam and insurance payments. Real-time revenue statistics.

**Reports & dashboards**

Track your monthly consultations, revenue and payments through clear, readable statistics.

**Automatic notifications**

New appointment, confirmation, consultation reminder, payment received: no more missed items, no more manual follow-up.

**Security & compliance**

Complete activity log, fine-grained role management (doctor, secretary, accountant), protection of your sensitive medical data.

BUILT-IN MODULES

A platform designed for every specialty

Built for all Tunisian practices and clinics — general practice, cardiology, dermatology, pediatrics, gynecology, orthopedics, dental and more.

- ✓ **Patients & medical record** — structured records and instant global search.
- ✓ **Appointments & schedule** — visual planning, statuses and notifications.
- ✓ **Consultations & records** — linked diagnoses and medical history.
- ✓ **PDF prescriptions & printing** — with secure QR Code.
- ✓ **Billing & payments** — cnam, insurance, cash, card, check.
- ✓ **Reports & statistics** — financial and activity management.

WHY DOCTA?

Spend more time caring, less time managing

**Instant time savings**

Pre-filled patient records, prescriptions in 10 seconds, automatically generated invoices: win back hours every week.

**Accessible everywhere**

PC, tablet or phone: access your records at the clinic, at home or on the go, even offline.

**A simplified team**

Your secretary manages the schedule, patients and cash collection. Your accountant tracks the accounts. You care.

**Controlled profitability**

No lost paperwork, controlled collections, a clear financial dashboard to make the best decisions.

**10 min**

to create a patient record

**10 sec**

to generate a prescription

**0 paper**

100% digital records

**Backup**

automatic & secure for your data

SECURITY & CONFIDENTIALITY

Your medical data is sacred

**Strong encryption**

Your data is encrypted and stored on secure servers in Europe and Tunisia.

**Roles & permissions**

Each team member only accesses what they need. Complete activity log.

**Automatic backups**

Daily automatic backups: in the event of an incident, your data remains intact.

TESTIMONIALS

They use DOCTA every day

"Since DOCTA, my secretary handles the whole schedule and cash collection. I've won back precious time and my patients are better followed up."

Dr. Sonia B.
General practitioner, Tunis

"The PDF prescriptions with QR Code and cnam billing saved me a huge amount of time. The support is very responsive."

Dr. Karim M.
Cardiologist, Sfax

"The digital medical record transformed follow-up of my pregnant patients. Everything is up to date, reliable and one click away."

Dr. Leila T.
Gynecologist, Sousse
